

REBUILD KITS FOR THOMAS EXTERNAL PUMPS

I. SCOPE:

How to determine the right Thomas pump rebuild kit for your pump.

II. PARTS:

API PN PU0000023
API PN PU0000011

III. TOOLS:

None

IV. PROCEDURE:

The only difference between the two kits is the diameter of the piston connecting rod bearing, motor drive shaft bearing and eccentric. The kit # PU0000011 has the larger piston connecting rod bearing diameter (2.15 In.). The kit # PU0000023 has the smaller piston connecting rod bearing diameter (1.65 In.).

To determine the kit you need, find the model number on the pump then look in the enclosed table for the rebuild kit number.

Thomas Pump Model Number	*	API Rebuild Kit Part Number
617CA32	*	PU0000011
607CA32	*	PU0000011
627CA32	*	PU0000011
607CD32	*	PU0000011
617CD32-EURO-F	*	PU0000011
627CF32	*	PU0000011
607CF32	*	PU0000011
607CR22	*	PU0000011
627CR22	*	PU0000011
